

MODEL: 501D

GREY PU COATED CUT-RESISTANT WORK GLOVES

A grey PU-coated cut-resistant glove rated ANSI A4 — serious cut protection for glass handling, metal fabrication, and sharp-material work, without giving up the dexterity of a coated-palm glove.

ANSI / EN388 RATINGS

EN 388:	4X43D
ANSI Cut Level:	A4
Abrasion:	4
Tear:	4
Puncture:	3

SIZING & FIT: These fit snugly by design so you keep full dexterity and grip sensitivity — order your usual glove size rather than sizing up.

CARE: Rinse the coated palm clean of debris and let it air dry. Skip the washing machine and dryer — heat and agitation break down the coating faster than normal wear. Retire the gloves once the coating cracks or the palm wears thin.

IDEAL FOR

Glass installers, metal fabricators, and sheet-metal handlers

PACKING

Single pairs up to 24-pair packs

SIZES AVAILABLE

Small (7) to 2XL (11)
