

MODEL: THERM7

7-GAUGE FLEECE-LINED LATEX COATED WINTER WORK GLOVES

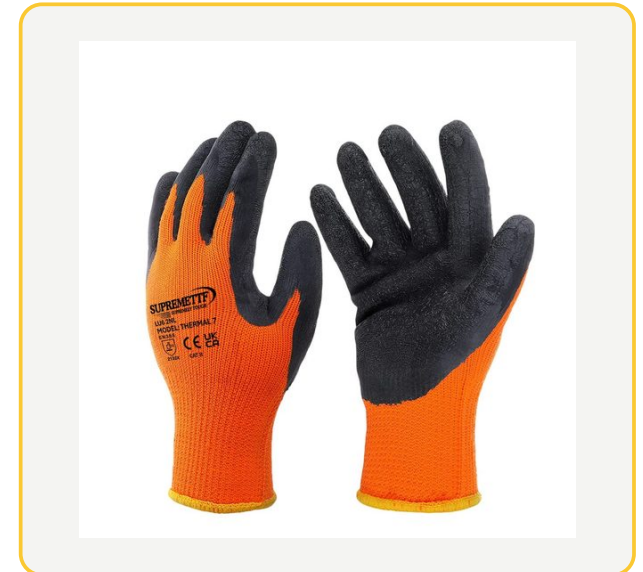

A 7-gauge fleece-lined latex-coated winter work glove in hi-vis orange - built for cold-weather builders, gardeners, and outdoor crews who need warmth without giving up grip.

KEY FEATURES

- Latex-coated palm & fingers for grip in cold, wet conditions
- Thick 7-gauge fleece cotton liner for warmth
- Hi-vis orange shell keeps you visible on site
- Elasticated cuff for a comfortable, debris-free fit
- EN 388 rated: Abrasion 2, Cut 1, Tear 3, Puncture 2

SIZING & FIT: Runs true to size. If you're between sizes or plan to wear these over long shifts, sizing up slightly gives you a less restrictive fit.

CARE: Air dry after exposure to snow, rain, or sweat. Keep them away from radiators and other direct heat sources, which can damage the latex coating and insulating lining over time.

SIZE CHART

M	L	XL
8	9	10
