

MODEL: 603GRB-F

HEAVY-DUTY PU COATED CUT-RESISTANT WORK GLOVES

Our highest-rated grade F cut-resistant glove, representing the ultimate in cut resistance. The mottled blue liner is a composite 13-gauge yarn; the black coating is a double-dipped nitrile foam, designed for excellent dry and wet grip with enhanced cut resistance, dexterity, and breathable abrasion protection.

ANSI / EN388 RATINGS

Cut (ANSI 2016): **A6 / 4X44F**

Cut (ANSI 2003): **4543**

SIZING & FIT: These fit snugly by design so you keep full dexterity and grip sensitivity — order your usual glove size rather than sizing up.

CARE: Rinse the coated palm clean of debris and let it air dry. Skip the washing machine and dryer — heat and agitation break down the coating faster than normal wear. Retire the gloves once the coating cracks or the palm wears thin.

SIZE CHART

M	L	XL	2XL
8	9	10	11

IDEAL FOR

Manufacturing & Maintenance • Engineering • Construction • Automotive

PACKING

Individually Packed • 12 pairs/polybag • 120 pairs/carton

SIZES AVAILABLE

M (8) to 2XL (11)
