

MODEL: 103RB

NITRILE COATED RED/BLACK WORK GLOVES

A five-finger Red Nylon/Polyester knitted liner glove with a Black Nitrile coating on the palm and finger tips. The back of the glove remains uncoated, providing good ventilation and avoiding perspiration and clamminess. Fits like a second skin, molding to the operator's hand.

ANSI / EN388 RATINGS

- Abrasion: 3
- Cut: 1
- Tear: 2
- Puncture: 1

SIZING & FIT: Runs true to size. If you're between sizes or plan to wear these over long shifts, sizing up slightly gives you a less restrictive fit.

CARE: Rinse the coated palm clean of debris and let it air dry. Skip the washing machine and dryer — heat and agitation break down the coating faster than normal wear. Retire the gloves once the coating cracks or the palm wears thin.

SIZE CHART

S	M	L	XL	2XL
7	8	9	10	11
