

MODEL: 103WG

NITRILE COATED WHITE/GREY WORK GLOVES

A lighter-weight nitrile-coated glove in white/grey, built for tasks where chemical splash and heat resistance matter alongside everyday grip - light assembly, maintenance, and inspection work.

KEY FEATURES

- Nitrile-coated palm for secure grip and chemical resistance
- Breathable seamless knit liner
- Heat-resistant coating rated for warm-surface handling
- EN 388 rated for abrasion, cut, tear, and puncture resistance

SIZING & FIT: Runs true to size. If you're between sizes or plan to wear these over long shifts, sizing up slightly gives you a less restrictive fit.

CARE: Rinse the coated palm clean of debris and let it air dry. Skip the washing machine and dryer — heat and agitation break down the coating faster than normal wear. Retire the gloves once the coating cracks or the palm wears thin.

SIZE CHART

M	L	XL	2XL
8	9	10	11

IDEAL FOR

Light assembly & inspection • Maintenance near warm surfaces or mild chemicals

PACKING

Individually Packed • Pack Qty from single pairs up to bulk 240-pair cases

SIZES AVAILABLE

Medium (8) • Large (9) • XL (10) • 2XL (11)
