

MODEL: 103WG

NITRILE COATED WHITE/GREY WORK GLOVES

A lighter-weight nitrile-coated glove in white/grey, built for tasks where chemical splash resistance matters alongside everyday grip — light assembly, maintenance, and inspection work.

KEY FEATURES

- Nitrile-coated palm for secure grip and chemical resistance
- Breathable seamless knit liner
- EN 388 rated for abrasion, cut, tear, and puncture resistance

SIZING & FIT: Runs true to size. If you're between sizes or plan to wear these over long shifts, sizing up slightly gives you a less restrictive fit.

CARE: Rinse the coated palm clean of debris and let it air dry. Skip the washing machine and dryer — heat and agitation break down the coating faster than normal wear. Retire the gloves once the coating cracks or the palm wears thin.

IDEAL FOR

Light assembly and inspection work, maintenance around warm surfaces or mild chemicals

PACKING

Single pairs up to bulk 240-pair cases

SIZES AVAILABLE

Medium (8) to 2XL (11)
