

MODEL: FC-THERM 328-ORA

ORANGE THERMAL INSULATED WORK GLOVES

An insulated winter work glove built for cold, wet outdoor conditions - the waterproof orange shell keeps water out while the thermal lining keeps hands working in freezing temperatures.

KEY FEATURES

- Double-dipped latex/nitrile coating - fully waterproof shell
- Thermal fleece lining for cold-weather insulation
- Textured grip palm, wet or dry
- EN 511 rated for cold protection
- EN 388 rated: Abrasion 2, Cut 2, Tear 3, Puncture 2

SIZING & FIT: Runs true to size. If you're between sizes or plan to wear these over long shifts, sizing up slightly gives you a less restrictive fit.

CARE: Air dry after exposure to snow, rain, or sweat. Keep them away from radiators and other direct heat sources, which can damage the waterproof coating and insulating lining over time.

SIZE CHART

M	L	XL
8	9	10
