

MODEL: FC328 / THERMAL

WATERPROOF & THERMAL WINTER WORK GLOVES

A winter work glove available in two styles: fully waterproof latex-coated, or fleece-lined thermal for extra warmth. Both keep hands working through cold, wet conditions without losing grip.

KEY FEATURES

- Waterproof: double-dipped latex coating, full waterproof coverage
- Thermal: latex-coated shell plus insulated lining for warmth
- Textured palm for secure grip, wet or dry, on both styles
- EN 388 rated: Abrasion 2, Cut 1, Tear 3, Puncture 1 (Waterproof style)

SIZING & FIT: Runs true to size. If you're between sizes or plan to wear these over long shifts, sizing up slightly gives you a less restrictive fit.

CARE: Rinse the coated palm clean of debris and let it air dry. Skip the washing machine and dryer — heat and agitation break down the coating faster than normal wear. Retire the gloves once the coating cracks or the palm wears thin.

Latex Coated **Waterproof** Work Gloves

SIZE CHART

M	L	XL
8	9	10
